

SPECIALIZED SECONDARY SCHOOL OF FOREIGN

LANGUAGES №2 IN TURKMENABAT

27.04.2022

It is my pleasure to strongly recommend Guvanch Kabulov for Fullbright Programme.

I am Bayjanova B., Principal of the specialized secondary school of foreign languages № 2 in Turkmenabat city. There are many great teachers working there. Guvanch Kabulov is one individual I have worked with is uniquely stands out. I found him to be consistently delightful, tackling all his tasks with dedication and a contagious optimism.

During his time as an Educator at our school, he displayed great talents in managing his classroom, teaching concepts of all learning styles and developing a genuine love of learning in his students. I was lucky enough to see him grow and learn as an educator as he began introducing innovative teaching styles that made a difference in the way his students both behaved and learned. He is also a take-charge person who is able to come up with very creative ideas and communicate it effectively with the other teachers. He has developed innovative techniques in making our processes time-efficient. Being excellent at Software Engineering, he developed course structure and software projects in Javascript, Php, Mysql and Html+Css.

This change was a direct result of the creation of the local school website. With the help of the program teachers of our school can monitor and evaluate the students' knowledge without printing out the tests. Besides, Guvanch Kabulov made questions' selection in random way without repetition for students not to cheat and copy from each other.

Guvanch Kabulov was certainly an assert to our work. He is also extraordinary helpful in areas that are outside of his expertise.

I fully support his decision to continue his studies and pursue a master's degree in relation to his field. Not only will he bring the kind of skills and experiences you are looking for in an applicant, but he will also quickly become an assert and help your program in the way he can, as he is an excellent and experienced IT teacher and a good specialist in this field.

To conclude, I would like to reiterate my strong recommendation for Guvanch Kabulov. I believe that he will be an excellent to your graduate program.

Sincerely,

Bayjanova B.
